Prohibited Child Labour

GPI AsiaTel believes that children are the future of any country and they should be taken care of not only by the parents but also by all the people around.

GPI AsiaTel strictly follows the rules and regulations of the government of the Peoples Republic of Bangladesh. GPI AsiaTel proudly announces that there is no employee in GPI AsiaTel below the age of 18 Yrs.

GPI AsiaTel provides comfortable and healthy working environment which can meet any international VENDOR's or CUSTOMER's requirements. Each year GPI AsiaTel conducts employee satisfaction survey to determine its future direction, Resource development and improved working environment plan is derived as per the survey.

Quality Control

GPI AsiaTel has special teams whose one of the key focuses is on Quality management of a project. Whether it is a huge project or small project, GPI AsiaTel always provides engineers trained specially to check and maintain quality in a project.

Quality control in a project includes :

- a) Maintaining quality of Civil Construction projects
- b) Maintaining quality of telecommunication hardware installation
- c) Maintaining quality in documentation
- d) Maintaining quality in resource management
- e) Maintaining quality in Operation & Maintenance of networks.

GPI AsiaTel is committed to its customer about maintaining quality, hence GPI AsiaTel have internal quality teams who visit at least 30% sites in a project. Any breach of quality among the teams will result in punishments which may be imposed according to the three categories like Minor, Major, Critical which will be executed by company rules and HR policy

At the end of a project, quality management teams submit their detail reports for a project to the management teams, thus enabling the management to take proper steps on maintaining quality and providing best services to our valued customers.

GPI AsiaTel believes quality comes first.

Critical Situation Planning

GPI AsiaTel believes that an organized step can meet any challenging projects. Still for the workload and according to customer requirements GPI AsiaTel has capability to overcome critical situations in terms of both equipment and technical resources for on time delivery of the projects.

To meet the critical situation GPI AsiaTel has trained few teams who can work with multiple vendor equipment. Also, for on time delivery of a project GPI AsiaTel can increase the team members as well as increase the number of teams with proper tools.

In case of any critical problem arises in any sites or project GPI AsiaTel provides two level of experts who have enough knowledge and sufficient experience along with proper training throughout the respective equipment more than the concerned-on site people. These two levels of experts are Mid-level & higher-levels. The mid level has at least 2 Years experience with direct supervision of the on-site concern. Whereas the expert level has at least 4 years on hand experience and also trained or certified by Vendors or Customers and direct supervised the Mid level experts.

As a well-known organization GPI AsiaTel is also capable of managing a huge project which might take months to complete. For project management GPI AsiaTel always considers Technical resources who have adequate management and professional knowledge specially in Telecommunication (Telco), Information Technology (IT) and Civil Construction with Power (Transmission Line & Substation) sectors at Government & Non- Government arena. By these resources GPI AsiaTel organizes the ongoing projects very smoothly. In case of any critical situation GPI AsiaTel can enrich the resources by providing additional teams, engineers & project-coordinators.

Precautions and Safety Measurements

GPI AsiaTel understands the risk involved in working onsite. Hence it is our top-most priority to ensure safe working environment for the employees.

GPI AsiaTel strongly maintains the rules and regulations for on-site technical persons. Also, GPI AsiaTel is committed to its customer as well as its employees to provide them all the safety manuals and materials while working.

Following are the key safety precautions that all the employees must follow during work:

1. Use of safety Helmet while working in BTS/MW or Tower sites.
2. Use safety shoes, helmet, gumboot while working in construction sites.
3. Use of safety belt and full body-harness while working height on Tower.
4. Use of hand gloves while working.
5. Inform and follow up of the mandatory safety requirements that are imposed by the Customer.
6. Prohibition on wearing any metallic or conductive equipment while working on power equipment's .
7. Arrangement of quarterly & monthly HSE training session or beginning of a major project to train the employees about maintaining the safety and quality in Telecommunication (Telco), Information Technology (IT) and Civil Construction with Power (Transmission Line & Substation) sectors works .
8. Consecutive breach of safety regulations will result in punishment or termination of any employee.

Measures To Prevent Incident

GPI AsiaTel is fully concern and is continuously taking some realistic steps, so any type of incident ever never happened anymore.

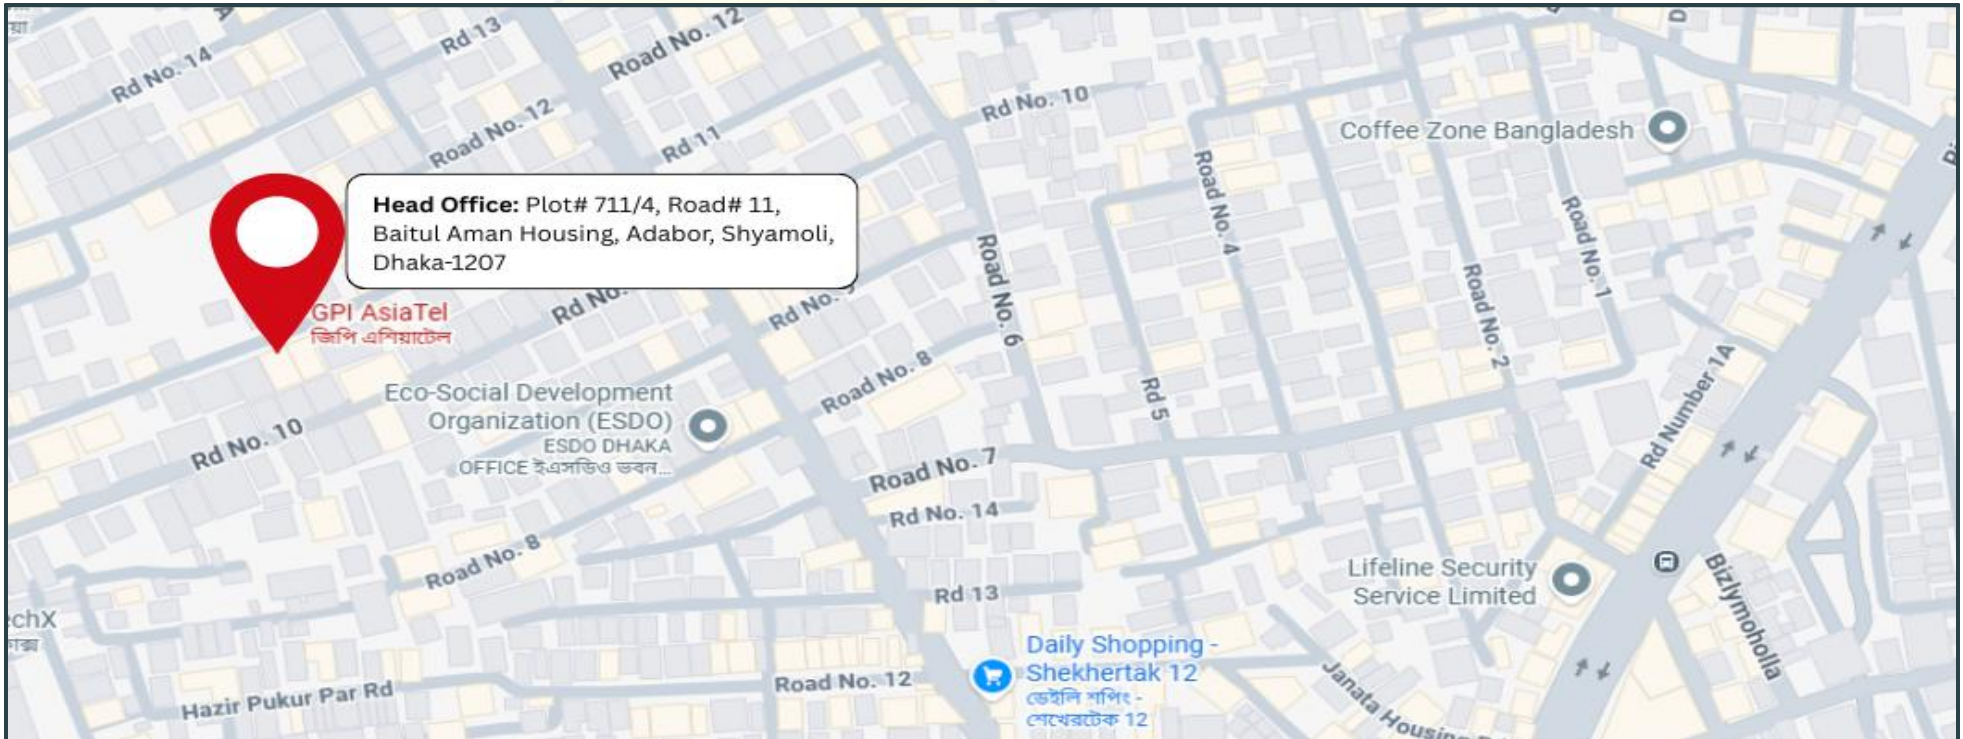

1. Process follow up with properly communication & Awareness is the focus of GPI AsiaTel from the very beginning of its establishment and the Company is still pursuing the same policy with all Employee.
2. GPI AsiaTel also frequently arranged training on Process follow up with properly communication & Awareness where All our Officials with Employees were present and gave practical training and advice to most of our Engineers, Team Leader & Technicians.
3. GPI AsiaTel also arranged some workshop and urged all GPI AsiaTel's site Employees with Employee to wear Safety Equipment's including Safety Belt, Helmet, Safety Shoe, Gloves and Safety Harness, Process follow up with properly communication & Awareness with their own responsibility while working in site.
4. GPI AsiaTel is frequently imposing financial penalty to climb on a tower without proper safety protection , Process follow up with properly communication & Awareness especially mentioned that there are also having scope of "Award for excellent works " to do steps properly .During rain or if the tower remain wet, no one with Employee is allowed to climb or work on any tower. Besides, any sick person must not try to climb a tower.
5. Besides, GPI Asia Tel is going to continuous process on arranging more training on Process follow up with properly communication & Awareness so that every new entrant with Employee can learn about safety measure and use the safety equipment's on-site.
6. GPI AsiaTel is arranging bi-weekly monthly meeting especially on Process follow up with properly communication & Awareness , "Safety Awareness" among all employees with Employee and the higher Management of GPI AsiaTel.

Anti Corruption Policy of GPI AsiaTel

Following Policy of GPI AsiaTel Regarding Anti Corruption are maintaining strictly.

- i) All officers and employees of the organization must obey the existing rules and regulations of the organization. Otherwise, first warning letter will be issued, if the reply is not satisfactory or in case of no reply, second warning will be issued. If both the answers are not satisfactory, the management will take final decision considering all issues.

INDEPENDENT AUDITOR'S REPORT
To the Owners of GPI ASIATEL
Opinion

We have audited the accompanying financial statements of GPI ASIATEL, which comprise the statement of financial position as at 30 June 2025, and the statement of profit or loss and other comprehensive income, statement of capital fund, and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes.

In our opinion, the accompanying financial statements give a true and fair view, in all material respects, of the financial position of the Firm as at 30 June 2025, and the statement of profit or loss and other comprehensive income, statement of capital fund, and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes for the year then ended in accordance with International Financial Reporting Standards (IFRS) and applicable laws and regulations.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Firm in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the Institute of Chartered Accountants of Bangladesh (ICAB) Code of Ethics, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Partners for the Financial Statements

Management and the partners are responsible for the preparation and fair presentation of these financial statements in accordance with BFRS, and for such internal control as management and partners determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and partners are responsible for assessing the Firm's ability to continue as a going concern, disclosing, as applicable, matters related to going concern, and using the going concern basis of accounting unless management and partners either intend to liquidate the Firm or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objective is to obtain reasonable assurance about whether the financial statements are free from material misstatement, whether caused by fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance but not a guarantee that an audit conducted in accordance with ISAs will always detect material misstatements. Misstatements may arise from fraud or error and are considered material if they could reasonably influence the economic decisions of users taken based on these financial statements.

As part of an audit under ISAs, we:

- Identify and assess risks of material misstatement in the financial statements, whether due to fraud or error;
- Design and perform audit procedures responsive to those risks and obtain sufficient and appropriate evidence to support our opinion;
- Obtain an understanding of internal control relevant to the audit to design procedures but not to express an opinion on the effectiveness of internal control;
- Evaluate the appropriateness of accounting policies and the reasonableness of accounting estimates made by management;
- Evaluate the overall presentation, structure, and content of the financial statements;
- Conclude whether the financial statements are prepared using an appropriate going concern basis and whether any material uncertainty exists.

Report on Other Legal and Regulatory Requirements

In accordance with the requirements of The Proprietorship Act and other applicable laws and regulations, we also report that:

- a. we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
- b. proper books of account have been kept by the Firm so far as it appeared from our examination of those books; and
- c. the financial statements are in agreement with the books of account.

NOTES TO THE FINANCIAL STATEMENT
FOR THE YEAR ENDED JUNE 30, 2025

01.00 Reporting Entity

01.01 Company Profile

Reporting Company: GPI AsiaTel is a Proprietorship Business, Proprietor- Dr. Shaila Afreen Khandaker, Located at House No-711/4, Road No-11, Baitul Aman Housing Society, Adabor, Shymoli, Dhaka.

01.02 Nature of Business

The main activities of the company were

02.00 Basis of Preparation

The financial statements of the company under reporting have been prepared in accordance with a going concern concept under historical cost convention and basically on accrual basis of accounting except for Interest income on balances with other banks and financial institutions in accordance with generally accepted accounting principles and after due compliance with International Accounting Standards/International Financial Reporting Standards so far adopted in Bangladesh as Bangladesh Accounting Standards/ Bangladesh Financial Reporting Standards by the Institute of Chartered Accountants of Bangladesh, the Companies Act, 1994 and other applicable laws & regulations.

02.01 Reporting Period

The financial statements cover one year from 01 July, 2024 to 30 June, 2025.

03.00 Significant Accounting Policies

Principal Accounting Policies

The accounting policies set out below have been applied consistently to all periods presented in this financial statements.

03.01 Property, Plant and Equipment:

a. Recognition and Measurement:

In compliance with IAS-16 (Property, Plant & Equipment) items of property, plant and equipment (PPE), excluding land, are initially measured at cost less accumulated depreciation and accumulated impairment losses, if any. Land is measured at cost. The cost of an item of PPE comprises its purchase price, import duties and non-refundable taxes, after deducting trade discount and rebates and any costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the intended manner.

b. Capitalization of Borrowing Cost:

Finance cost that are directly attributable to the construction of plants are included in the cost of those plant & machinery in compliance with IAS-23: Borrowing Cost, allowed alternative treatment.

c. Subsequent Costs:

The cost of replacing part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The cost of the day to day maintaining cost on PPE are recognized in the income statement as incurred.

d. Depreciation:

Depreciation is recognized in the Statement of Comprehensive Income on a reducing balance method on all item of property, plant & equipment.

e. Retirements and Disposals:

An asset is derecognized on disposal or when no future economic benefits are expected from its use and subsequent disposal. Gains or losses arising from the retirement or disposal of an asset is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognized as gain and loss from disposal of asset under other income in the Statement of Comprehensive Income.

G. NABI & CO.
CHARTERED ACCOUNTANTS

03.02 Advances:

Advances are initially measured at cost. After initial recognition advances are carried at cost less deductions, adjustments or charges to other account heads such as PPE or inventory etc.

03.03 Cash & Cash Equivalents:

For the purpose of Balance Sheet and Cash Flow Statements, Cash in hand and Bank balances represent cash and cash equivalents considering the IAS-1 "Presentation of Financial Statements" and IAS-7 "Cash Flow Statement", which provide that Cash and Cash equivalents are readily convertible to known amounts of Cash and are subject to an insignificant risk of changes in value and are not restricted as to use.

03.04 Bills Receivables:

Bills receivables consists of unpaid bills receivables from enlisted dealer and unbilled revenue recognized at the statement of financial position date.

03.05 Provisions:

A provision is recognized on the balance sheet date if, as a result of past events, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

03.06 Income Tax:

The corporate tax rate for private limited company is applied.

03.07 Revenue recognition:

In compliance with the requirements of IAS-18 "Revenue", revenue is recognized only when:

- * The services are invoiced and dispatched to the customers; and
- * Interest income is recognized on accrual basis.

03.08 Financial Expenses:

Financial expenses comprises interest expenses on all bank charges, commission & others. All borrowing costs are recognized in the income statement using effective interest method.

03.09 Events after Reporting Period:

Events after reporting period that provide additional information about the Company's position at the balance sheet date are reflected in the financial statements. Events after reporting period that are not adjusting event are disclosed as off statement of financial position items.

HUAWEI

LETTER OF AWARD

Y2011-Y2013 Bangladesh BTS & MW Engineering Service

Outsourcing Project

To: GPI AsiaTel

After careful and comprehensive evaluation and assessment, it is a pleasure to inform you that HUAWEI TECHNOLOGIES (BANGLADESH) LTD ("Huawei") has accepted GPI AsiaTel (Trade license No.: 0711825) as one of the Subcontractor for Y2011-Y2013 Bangladesh BTS & MW Engineering Service Outsourcing Project based on the RFQ Proposals submitted on 23rd April 2011 and other issues apparently clarified and mutually agreed in our various tender documents and meetings.

Hereby, we formally inform that you are selected as the winner for below sub-package:

Sub-Package	Service	Awarded Share	Awarded Amount (USD)
AP11041803BJ01-A5	BTS Implementation	12%	
AP11041803BJ01-C4	BTS&MW Co-site Implementation	15%	

The preliminary estimated awarded amount is **USD 1,856,523**. The implementation period is estimated from May 2011 to April 2013.

Herein, we would like to notify all our partners that subcontractors shall ONLY mobilize and commence work upon the receipt of the Purchase Order (PO) from Huawei. In the case of Subcontractor mobilizing its engineering teams without receiving the relevant PO from Huawei, all the cost incurred shall be borne by the Subcontractor.

Please sign and stamp the attached Receipt of Acknowledgement and send it back to Huawei within **two (2) Working days** upon your receipt of this Letter.

If you fail to return the signed Receipt of Acknowledgement, we reserve the right to regard this as your renunciation.

Robi Dhaka Swap Project Contract

1 Preface

1.1 The Parties

Huawei Technologies (Bangladesh) Limited is a company incorporated under the laws of People's Republic of Bangladesh, having its registered address at **SIMPLETREE GSR, Plot No. 01, Block- CEN (H), Holding Number 130, Road No. 109, Gulshan Avenue, Gulshan, Dhaka** (hereinafter referred to as "Huawei" or "Contractor").

GPI AsiaTel, a company incorporated under the laws under the laws of People's Republic of Bangladesh, having its registered address at **Plot # 711/4 ,Road # 11, Baitul Aman Housing Society, Adabor , Shyamoli, Dhaka**, (hereinafter referred to as the "Subcontractor" or "Supplier").

Contractor and Subcontractor may be collectively referred to as "Parties" or individually as "Party" where the context so requires.

1.2 Effective Date

This **FPA1151BGD26020510632338** Frame Purchase Agreement ("FPA") shall come into effect on the date of **08-February-2026** ("Effective Date") after it is signed by the Parties hereto. In the event that the final signature date is later than this Effective Date, the Parties agree that this FPA shall take retroactive effect to the Effective Date specified herein. This agreement shall continue to be valid up to **31-December-2027** for issuing PO.

1.3 Whereas

- A. Contractor and Subcontractor have entered into the Master Purchase Agreement (Agreement No.: **MPA1151BGD23102210307525**, "MPA");
- B. Subcontractor has won the bidding of **Robi Dhaka Swap Project Contract** of Contractor; and
- C. The Parties desire to clarify the special rights and obligations under the aforementioned project on the basis of the MPA.

NOW, THEREFORE, due to the business requirement of both parties hereto are willing to execute a new FPA being **FPA1151BGD26020510632338** which will supersede the aforementioned previous FPA in consideration of the mutual premises and covenants, the Parties agree as follows:

2 Definitions

The following terminologies are listed according to alphabetical order of the initial letters. Unless specially defined in this clause, the terminologies used in this FPA shall have the same meanings as defined in the MPA.

- 2.1 "Engineering Document": means the drawings, specification and the equipment document of Contractor, defining the exact procedure and specifications of the Equipment and Service.
- 2.2 "Equipment Installation Service" or "Service": means the installation, testing commissioning and other services undertaken by Subcontractor under this FPA.
- 2.3 "QAA", i.e. the Quality and EHS Assurance Agreement, which has been signed by the Parties

(Agreement No.: **MPA1151BGD23102210307525**).

- 2.4 "QAA", i.e. the Quality and EHS Assurance Agreement, which is an appendix of the MPA.
- 2.5 "SCM System", i.e. the Supply Chain Management System.
- 2.5 "SPE", is the abbreviation of the Supplier Performance Evaluation.

3 Scope of Work

- 3.1 The detailed scope of work of the Service is specified in the "Scope of the Work" and the "Price List" both are attached to this FPA as appendices.
- 3.2 This FPA is to set forth the terms and conditions, in accordance with which, Subcontractor shall totally and adequately perform the Services defined in each individual Purchase Order ("PO"); and the terms and conditions, in accordance with which, Contractor shall pay to Subcontractor the related consideration for the Services accordingly.
- 3.3 The provision of the Services shall be performed and completed by Subcontractor in accordance with the specification of Engineering Documents and each PO.
- 3.4 Subcontractor shall not commence any work under this FPA without a valid PO, which is issued by Contractor through the information system has been agreed by the Parties (such as SCS System) or signed by representatives appointed by the Parties via writing. Unless otherwise agreed by both Parties, each PO shall be deemed as incorporating the terms and conditions of this FPA automatically, whether or not this FPA is specifically mentioned therein.
- 3.5 Under no circumstances shall any inadvertent omission of reference to this FPA in a PO affect the application of all the terms and conditions of this FPA.
- 3.6 In addition, as agreed by the Parties, Subcontractor shall provide "last miles" logistics services according to the appendix: Supplementary Agreement on Logistic Services for Engineering Subcontractor.

4 Price and Payment

4.1 Price

- 4.1.1 The Subcontract Price as is the sum of the FPA will be based on unit price which is included in the "Prices List". The amount paid to Subcontractor shall be ascertained with the actual quantity specified in each PO and unit price. According to the law and routine in territory, all the prices in "Price List" shall include, but not limited to, all taxes (excluding VAT), withholding taxes applicable in territory, and insurance agreed by the Parties.
- 4.1.2 Subcontract Price in "Prices List" shall include all Services together with any equipment and materials satisfactorily provided by Subcontractor for the purpose and during the term of this FPA, which includes all costs and expenses incurred by Subcontractor in the provision of the Services and equipment/materials, including but not limited to all personnel costs whether direct or indirect, overheads, profit, supervision, hand tools, traffic, communication costs, office costs and applicable duties, freight, insurance, packing, storage, unpacking costs relating to the applicable trade term as well as removal of waste, positioning, installation, testing and all other charges, expenses arising from the performance of the FPA.
- 4.1.3 The total payment amount should be calculated by unit price and each PO quantity accepted by

 **HUAWEI** Robi Dhaka Swap Project Contract Confidential

10.3 Authorization: Each Party hereby represents and warrants to the other Party that it has the full power and authority to enter into this FPA and perform the obligations hereunder.

10.4 Communication: Unless otherwise agreed by both Parties, only the information designated by both Parties in appendix: "Contact Information" shall be used for any official contacts and settlement between both Parties in connection with this FPA.

10.5 Governing Law & Dispute Resolution:

The Agreement & the PO(s) issued under this Agreement shall be governed & construed in accordance with the provisions of the laws of Bangladesh. Huawei and the Supplier shall use their best efforts/direct negotiation to settle amicably all disputes arising out of or in connection with this Agreement or its interpretation. If the Parties are unable to reach an amicable settlement, then disputes will be finally settled under the Rules of Arbitration of the Arbitration Act 2001, Bangladesh by one or more arbitrators appointed in accordance with the said rules. The seat of arbitration shall be Dhaka, Bangladesh.

10.6 Effect:

This FPA shall come into effect on the "Effective Date" and shall continue to be valid up to December 31, 2027 (Expiry Date). For a valid PO which has been issued and confirmed before the termination or expiration of this FPA, it shall continue to be effective till it is totally fulfilled, unless it is terminated earlier according to the MPA or this FPA.

10.7 Counterparts: This FPA shall be executed in [2] counterparts, [1] for each Party, which shall be deemed to have equal effect.

11 Appendices

- Appendix 1: Scope of the Work

AGREEMENT NO. SIBD2025122701WBF1

This Agreement is entered into by and between

ZTE CORPORATION BANGLADESH LTD a company incorporated in Bangladesh with its registered office at Delta Life Tower, 5th Floor, Plot - 37, Road - 45&90, Gulshan North Circle - 2, Dhaka -1212, Bangladesh. (hereinafter referred to as 'Contractor' or 'ZTE').

AND

GPI Asia Tel, a company incorporated in Bangladesh with its registered office at House # 272, Road # 19, New DOHS, Mohakhali, Dhaka- 1206.(hereinafter referred to as 'Subcontractor').

WHEREAS:

- A. The Subcontractor is engaged in, amongst other activities, Site Survey&Design, BTS installation, BSC/RNC room equipments installation, Minor CME, MW, Transportation, Network Optimization and so on.
- B. The Contractor and Subcontractor wish to establish an overall contractual framework for the provision of Products and Services as provided in this Agreement and Annexes hereto.
- C. The cooperation relationship established by this Agreement is the basis on which Contractor may place purchase order with Subcontractor during the term of this Agreement.

Now Therefore, in consideration of the mutual obligations, representations, covenants and other good and valuable consideration, the adequacy of which is hereby acknowledged, the Parties agree to be bound by the following terms and conditions:

ARTICLE 1 DEFINITION

When used in this Agreement, the terms and expressions defined hereinafter between quotation marks with a capital letter will be capitalized throughout this Agreement and shall have the meaning hereby respectively assigned to them:

- 1.1 **"Agreement"** shall mean the present Framework Subcontract Agreement between the Contractor and the Subcontractor, any Annex attached and any valid amendment hereto, any supplementary agreements and succeeding amendments thereto, defining the rights and duties of the Parties.
- 1.2 **"Business Day"** shall mean the weekdays excluding any public holidays stipulated in the local legislations.

AGREEMENT NO. SIBD2025122701WBF1

- 1.26 **"Work"** shall mean the work specified in Annex 2 Scope of Work and to be executed and completed by the Subcontractor in accordance with this Agreement.

ARTICLE 2 PURCHASE ORDER

- 2.1 This Agreement is not an exclusive agreement and shall not restrain Contractor from concluding the same or similar agreement with any third parties. Any and all of the Contractor's purchases of Products and/or Services from the Subcontractor under this Agreement is subject to the Contractor's issuance of PO to the Subcontractor as a confirmation.
- 2.2 The Subcontractor shall not reject the Contractor's PO under this Agreement. Subcontractor shall duly sign and return the PO to the Contractor within three (3) Days from the date of PO issuance, beyond which period, the Subcontractor shall be deemed to have rejected the PO and the Contractor reserves the right to rescind the PO in question.
- 2.3 The Subcontractor shall perform the Work specified in this Agreement after receiving a PO-which normally-details work quantity and the time for starting and completion of the Work. If Commencement Date is absent-in the PO, the date of-receiving the relevant PO by the Subcontractor shall be deemed as the Commencement Date of the Work. The Subcontractor shall be paid only for actual quantities of Work completed and accepted.
- 2.4 In case of any discrepancies between this Agreement and the PO, the provisions of this Agreement shall prevail.

ARTICLE 3 RESPONSIBILITY MATRIX
3.1 Responsibility of Contractor

Contractor shall supply relevant and necessary technical drawings and specifications as well as other documents required for this Project;

3.2 Responsibility of Subcontractor
3.2.1 Subcontractor's General Responsibilities:

- a) Subcontractor shall execute and complete the Work in accordance with the Annex 2 Scope of Work and supply Products strictly following Annex 1 Technical Specifications and shall remedy any defect of the Products and Services (if any). When completed, the Work shall be fit for the purposes for which the Work is intended under this Agreement.

- b) During the whole period of this Agreement, the Subcontractor shall not, directly or indirectly enter into any exclusive agreement or contract with a third party, under which the Subcontractor is contractually prevented from providing service or products to Contractor or to the parent company, affiliates, subsidiaries or associates of the Contractor.
- c) Subcontractor shall provide all the documents specified in this Agreement, and all personnel, goods, instruments, consumables and other things and Services, whether of a temporary or permanent nature, required in and for design, execution, completion and remedying of defects.
- d) All Works carried out by the Subcontractor shall satisfy the Contractor's requirement as specified in this Agreement or implied otherwise; Subcontractor shall ensure all Site works, operations and construction methods are safe and complete.
- e) Subcontractor shall, whenever required by the Contractor, submit details of the arrangements and methods which the Subcontractor proposes to adopt for the execution of the Work. Subcontractor shall not make any changes to these arrangements and methods without prior written consent of Contractor.
- f) Subcontractor shall submit the work documents for approval and counter-signed by Contractor for the acceptance of the Project. Upon completion of the acceptance, Subcontractor shall hand over all the acceptance documents including but not limited to the drawings, Project and testing records to Contractor. If Contractor has any comments on the above documents, Subcontractor will incorporate such comments and submit a newly revised version for Contractor's approval.
- g) Subcontractor shall duly submit daily and weekly reports on the progress of the Project as required by the Contractor and shall be responsible for the authenticity of the reports.
- h) Subcontractor shall promptly notify Contractor of any error, omission, fault or other defect in the design or specifications for the Work upon its first awareness or knowledge of such occurrence.
- i) Subcontractor shall be responsible for recording and promptly reporting problems found in the Project or reported by the Employer during the Work to Contractor's Site Representative in twenty-four (24) hours.
- j) Subcontractor shall provide all its Personnel with necessary tools, equipment and facilities to ensure their health and safety while they are present at the workplace of this Project. Proper work methods, procedures and personal protection measures shall be adopted and strictly observed by Subcontractor.

- k) Subcontractor shall advise, instruct and train (if necessary) all its Personnel to strictly follow the mandatory health and safety rules of the workplace. Subcontractor is liable for any damage and/or loss resulted from any safety incidents except such damage and/or loss is evidenced to be solely caused by Contractor's gross negligence.

3.2.2 Subcontractor's Personnel

- a) Subcontractor shall appoint a Subcontractor's Project Manager and shall fully authorize this position so as to enable its Project Manager to act on the Subcontractor's behalf under this Agreement.
- b) Subcontractor shall, prior to the Commencement Date, submit the name list and relevant particulars, such as resumes and contact details of its Key Personnel (including the project manager, regional manager, quality manager, construction team leader, and security manager) to Contractor for approval. When in possession of Contractor's written consent of these Key Personnel, Subcontractor shall issue written appointment to such Key Personnel. If such consent is withheld or subsequently revoked by the Contractor, or if the appointed person fails to act as this position as judged by contractor, the Subcontractor shall submit forthwith replacement name list and resume for such appointment within required time. Subcontractor shall keep an up to date list of people involved in the performance of the works, such list shall be provided to contractor at any time as required by the contractor and whenever any changes in the subcontractor's organization occur.
- c) Subcontractor shall not revoke the appointment of any Key Personnel or appoint a replacement for any of them without the prior written consent of Contractor.
- d) Subcontractor's Project Manager shall work on full-time basis and be on duty as long as there is Work in process. In the case that Subcontractor's Project Manager unavoidably has to be temporarily absent due to such reasons as illness etc., a suitable acting project manager shall be appointed by the Subcontractor and agreed by the Contractor during his absence.
- e) The Subcontractor's Project Manager shall, on behalf of Subcontractor, receive instructions from Contractor's Project Outsourcing Manager.

- 3.2.3 Subcontractor shall, within required time limit, build one demonstration sites in accordance with the standards and criteria set forth by the Employer and/or the Contractor. The Subcontractor shall be paid only for the demonstration sites which satisfy the Employer and the Contractor in quality and standards; and such satisfactory demonstration sites shall model all the following sites to be built by the Subcontractor. Design, Supply, Installation, Testing and Commissioning of 230/132/33 kV GIS Substation at Rupsha and 132/33 kV GIS Substations at Phultola, Monirampur, Maheshpur, Meherpur on turnkey basis (Package-7)

Satkhira Substation

Civil Construction and Gantry Erection Work Contract

Contract No.: CNEEC2022G1GIS002-021

Employer: China National Electric Engineering Co., LTD. Bangladesh Branch.

Contractor: GPI AsiaTel

2025/01/02

Contract Civil Construction and Gantry Erection

Whereas:

China National Electric Engineering Co., Ltd. Bangladesh Branch is a company with the legal status of Branch office having its registered House-59 B, Road-21, Barani, Dhaka-1212. hereinafter referred to as **"Employer"** The Employer has undertaken the project of Design, Supply, Installation, Testing and Commissioning of 230/132/33 kV GIS Substation at Rupsha and 132/33 kV GIS Substations at Phultola, Monirampur, Maheshpur, Meherpur on turnkey basis (Package-7) [Contract No.: PGCB/AIIB/L0272A/DWZTGP/GIS/P7] in Bangladesh of **Power Grid Company of Bangladesh Ltd.** (hereinafter referred to as **"PGCB"**) The Employer, in order to perform the project, intends to find a company to undertake the construction of civil engineering work of the project;

GPI AsiaTel (hereinafter referred to as **"Contractor"**) is a company incorporated in accordance with laws of Bangladesh with registered address in House#711/4, Road#11, Baitul Amin Housing, Adabor, Dhaka-1207. The Contractor is willing to execute the above-mentioned works of the project entrusted by the Employer for construction as agreed herein.

Before the Contract signing hereof, the Contractor has obtained and studied the contents of the Main Contract related hereto comprehensively and carefully, and fully understands the requirement of the project works involved. The Contractor has the construction experience of similar projects in Bangladesh and fully understands the changes and other risks in quantities and quality requirements etc. in the performance hereof.

The Employer and Contractor have, based on the principles of equality, voluntariness, fairness and integrity, entered into this Contract in Dhaka on 2025/01/02.

1. General Provision

1.1 Definition

Main Contract	means the contract and further documents of Supply, Installation, Testing and Commissioning of 230/132/33 kV GIS Substation at Rupsha and 132/33 kV GIS Substations at Phultola, Monirampur, Maheshpur, Meherpur on turnkey basis (Package-7) [Contract No.: PGCB/AIIB/L0272A/DWZTGP/GIS/P7] signed on 27th February 2022.
Contract	means the documents referred to in Clause 1.2, including any annexed memoranda as agreed by the Employer and Contractor in written
Facilities	bears same meaning ascribed to this term in the Main Contract
Party	means the Employer or the Contractor, as the context requires, and "Parties" means both of them
"Work" or "Works"	means all work to be performed by Contractor under this Contract.
Specification	means all technical requirements as indicated in Contract
Site	means the Sites of Satkhira as defined in the Main Contract

 中国电力工程有限公司
The National Electric Engineering Co., Ltd.

Page 2 / 57

Civil Construction and Gantry Erection	
Contract	
Commencement Date	as defined in Clause 6.1
Completion	means Facilities have been completed operational and structurally and put in a tight and clean condition, that all work in respect of Precommissioning of Facilities and other conditions for Completion under Main Contract have been completed and satisfied, that the Facilities are ready for Commissioning.
Completion Certificate	means the same certificate issued by PGCB to Employer under Main Contract to certify achievement of Completion of Facilities.
Estimated Contract Price	means the price calculated, according to the Estimated Work Quantity stated in Schedule 6, payable to the Contractor in consideration of the Contractor's Works.
Final Contract Price or Contract Price	means the final price calculated by according to approved drawing quantity of measured Works multiplying corresponding Unit Price payable to Party B in consideration of Works.
Estimated Work Quantity	means estimated construction quantity as set forth in Schedule 6.
Final Work Quantity	means the actual constructed quantity and/or actual amount of work as determined by the approved drawing to be issued by the Employer, however if any such actual constructed quantity and/or actual amount of work is caused by (a) reason not attributable to the Employer or (b) by any risk the Contractor shall assume under Contract or (c) by any situation not allowing increase in the Estimated Contract Price, Unit Price or Final Contract Price shall not constitute Final Work Quantity and still shall be performed by the Contractor according to Contract at the Contractor's cost.
Unit Price	mean the fixed and firm price quoted for any item of the Works which is stated in Schedule 6 (including optional items) .
Commissioning	bears same meaning ascribed to this term in the Main Contract
Precommissioning	bears same meaning ascribed to this term in the Main Contract
Operational Acceptance	means the acceptance by the Employer of the Facilities, which certifies the fulfillment of the Contract in respect of Functional Guarantees as defined in Main Contract and other conditions for Operational Acceptance under Main Contract have been completed and satisfied

Page 3 / 57

Civil Construction and Gantry Erection	
Contract

1.3 Law and Language	
The Contract shall be governed by Law of People's Republic of Bangladesh.	
The language for any activities under the Contract shall be English.	
1.4 Brief Scope of Works	
The scope of work shall cover the complete civil work, as defined in Schedule 1: Technical Requirement and Schedule 8: Detailed Scope for the Civil work, as per Employer's specifications/requirements, and shall fully follow the requirement of PGCB and the Main Contract.	
The scope of work shall include but not limited to permanent work, temporary work, defect rectification, work under Employer's instruction and any Variation. Any other work/ activities specially mentioned or not mentioned but, however, can reasonably be inferred from the Contract or any specifications/requirements, or required for the completeness and proper execution are included in Contractor's scope.	
All the related tests, accessory materials (refer to Schedule 8) , repair and finishing work shall be in Contractor's scope with no extra cost.	
2. The Employer	
<ul style="list-style-type: none"> The Employer shall be responsible for acquiring and providing possession of the Site or other areas reasonably required for the Works; The Employer shall provide to the Contractor with documents as defined in the Contract, 	

Page 4 / 57

Civil Construction and Gantry Erection

Contract

such as design documents including construction drawings, description of the design and design variation (if any).

- The Employer shall provide to the Contractor with equipment and materials as defined in the Schedule 8: Detailed Scope for the Civil Work.
- The Employer shall make payments to the Contractor in accordance with the terms and conditions under the Contract.
- The Employer may inspect the Works at any time and may at its own discretion give instructions to the Contractor in respect of the Works.
- If the Employer consider the Contractor to be incompetent to undertake any scope of work under this Contract, which estimated by the Employer's own discretion, the Employer shall have the right to remove any work from the Contractor's work scope without paying any fee for this part.
- If the Employer consider the Contractor fails to perform its any obligations under the Contract, the Employer shall have the right to make any claims under the Performance Security.
- Any approval or consent or absence of comment by the Employer or the Employer's representatives shall not release the Contractor's obligations under the Contract.

3. The Contractor

- The Contractor shall responsible for clean up the Site before commencement of the Works.
- The Contractor shall carry out and complete the Works within the Key Project Date as specified in sub-clause 6.3.
- Co-ordination with local people, getting the approval of civil work activities from the Employer/ Local Statutory Bodies is the responsibility of the Contractor. The Employer shall assist the Contractor for getting the approvals from PGCB.
- Contractors' sub-contractor should not approach the Employer for any topic related to non-performance of obligations by the Contractor towards his sub-contractor. If that is a case it would be give complete right to the Employer to deal with the same at risk and cost of the Contractor.
- No additional works/ extra works should be performed without getting written confirmation from the Employer.
- The Contractor shall provide the As-built information for the changes/corrections made at site during civil works.
- The Contractor shall be responsible for construction quality and meet the requirement of PGCB. If the Contractor fails to carry out any obligation under the Contract, the Employer may, by notice, require the Contractor to make good the failure and to remedy it within a specified time. Without limiting the Employer's other rights and remedies under the Contract, if the Contractor fails to make good and remedy the failure within the time specified in such notice, the Employer may, either itself or by other contractor, and at the Contractor's risk and cost, carry out the obligation.
- The Contractor shall take charge for the electricity and water supply and expenses for the construction use.

Design, Supply, Installation, Testing and Commissioning of 230/132/33 kV GIS Substation at Rupsha and 132/33 kV GIS Substations at Phultola, Monirampur, Maheshpur, Meherpur on turnkey basis (Package-7)

Kaliganj Substation

Civil Construction and Gantry Erection Work Contract

Contract No.: CNEEC2022G1GIS002-022

Employer: China National Electric Engineering Co., LTD. Bangladesh Branch.

Contractor: GPI AsiaTel

2024/11/18

Civil Construction and Gantry Erection Contract

Whereas:

China National Electric Engineering Co., Ltd. Bangladesh Branch is a company with the legal status of Branch office having its registered House-60 B, Road-21, Banani, Dhaka-1212, hereinafter referred to as "**Employer**". The Employer has undertaken the project of Design, Supply, Installation, Testing and Commissioning of 230/132/33 kV GIS Substation at Rupsha and 132/33 kV GIS Substations at Phultola, Monirampur, Maheshpur, Meherpur on turnkey basis (Package-7) [Contract No.: PGCB/A/HB/L0272A/DWZTIGEP/GIS/P7] in Bangladesh of **Power Grid Company of Bangladesh Ltd.** (hereinafter referred to as "**PGCB**"). The Employer, in order to perform the project, intends to find a company to undertake the construction of civil engineering work of the project;

GPI AsiaTel (hereinafter referred to as "**Contractor**") is a company incorporated in accordance with laws of Bangladesh with registered address in House#711/4, Road#11, Baitul Aman Housing, Adabor, Dhaka-1207. The Contractor is willing to execute the above-mentioned works of the project entrusted by the Employer for construction as agreed herein.

Before the Contract signing hereof, the Contractor has obtained and studied the contents of the Main Contract related hereto comprehensively and carefully, and fully understands the requirement of the project works involved. The Contractor has the construction experience of similar projects in Bangladesh and fully understands the changes and other risks in quantities and quality requirements etc. in the performance hereof.

The Employer and Contractor have, based on the principles of equality, voluntariness, fairness and integrity, entered into this Contract in Dhaka on 2024/11/18.

1. General Provision

1.1 Definition

Main Contract	means the contract and further documents of Supply, Installation, Testing and Commissioning of 230/132/33 kV GIS Substation at Rupsha and 132/33 kV GIS Substations at Phultola, Monirampur, Maheshpur, Meherpur on turnkey basis (Package-7) [Contract No.: PGCB/A/HB/L0272A/DWZTIGEP/GIS/P7] signed on 27th February 2022.
Contract	means the documents referred to in Clause 1.2, including any annexed memoranda as agreed by the Employer and Contractor in written
Facilities	bears same meaning ascribed to this term in the Main Contract
Party	means the Employer or the Contractor, as the context requires, and "Parties" means both of them
"Work" or "Works"	means all work to be performed by Contractor under this Contract.
Specification	means all technical requirements as indicated in Contract
Site	means the Sites of Kaliganj as defined in the Main Contract
Commencement Date	as defined in Clause 6.1
Completion	means Facilities have been completed operational and

Page 2 / 45

Civil Construction and Gantry Erection Contract

	structurally and put in a tight and clean condition, that all work in respect of Precommissioning of Facilities and other conditions for Completion under Main Contract have been completed and satisfied, that the Facilities are ready for Commissioning
Completion Certificate	means the same certificate issued by PGCB to Employer under Main Contract to certify achievement of Completion of Facilities.
Estimated Contract Price	means the price calculated, according to the Estimated Work Quantity stated in Schedule 6, payable to the Contractor in consideration of the Contractor's Works.
Final Contract Price or Contract Price	means the final price calculated by according to approved drawing quantity of measured Works multiplying corresponding Unit Price payable to Party B in consideration of Works.
Estimated Work Quantity	means estimated construction quantity as set forth in Schedule 6.
Final Work Quantity	means the actual constructed quantity and/or actual amount of work as determined by the approved drawing to be issued by the Employer, however if any such actual constructed quantity and/or actual amount of work is caused by (a) reason not attributable to the Employer or (b) by any risk the Contractor shall assume under Contract or (c) by any situation not allowing increase in the Estimated Contract Price, Unit Price or Final Contract Price shall not constitute Final Work Quantity and still shall be performed by the Contractor according to Contract at the Contractor's cost.
Unit Price	mean the fixed and firm price quoted for any item of the Works which is stated in Schedule 6 (including optional items) .
Commissioning	bears same meaning ascribed to this term in the Main Contract
Precommissioning	bears same meaning ascribed to this term in the Main Contract
Operational Acceptance	means the acceptance by the Employer of the Facilities, which certifies the fulfillment of the Contract in respect of Functional Guarantees as defined in Main Contract and other conditions for Operational Acceptance under Main Contract have been completed and satisfied
Operational Acceptance Certificate	means the same certificate issued by PGCB to Employer under Main Contract to certify achievement of Operational Acceptance of Facilities.

Civil Construction and Gantry Erection Contract

Defect Liability Period	shall be (12) months after the date as stated in Operational Acceptance Certificate to certify the achievement of Operational Acceptance. The Defect Liability Period of any pending works or defect works issued by PGCB and/or the Employer shall have the Defect liability Period extended by (12) months from the time completion of such replacement/repair of the works hereof.
The Bank	Asian Development Bank (ADB) and Asian Infrastructure Investment Bank (AIIB).
Day	Means calendar day.

1.2 Contract Documents

The following documents shall constitute the Contract between the Employer and the Contractor, and each shall be read and construed as an integral part of the Contract, the priority of the documents shall be in sequence provided:

- (a) This Contract
- (b) Main Contract
- (c) Annexs
- (d) Schedules
- (e) Contractor's Bidding documents

1.3 Law and Language

The Contract shall be governed by Law of People's Republic of Bangladesh.

The language for any activities under the Contract shall be English.

1.4 Brief Scope of Works

The scope of work shall cover the complete civil work, as defined in Schedule 1: Technical Requirement and Schedule 8: Detailed Scope for the Civil work, as per Employer's specifications/requirements, and shall fully follow the requirement of PGCB and the Main Contract.

The scope of work shall include but not limited to permanent work, temporary work, defect rectification, work under Employer's instruction and any Variation. Any other work/ activities specially mentioned or not mentioned but, however, can reasonably be inferred from the Contract or any specifications/requirements, or required for the completeness and proper execution are included in Contractor's scope.

All the related tests, accessory materials (refer to Schedule 8) , repair and finishing work shall be in Contractor's scope with no extra cost.

2. The Employer

- The Employer shall be responsible for acquiring and providing possession of the Site or other areas reasonably required for the Works;
- The Employer shall provide to the Contractor with documentations as defined in the Contract, such as design documents including construction drawings, description of the design and design variation (if any).
- The Employer shall provide to the Contractor with equipment and materials as defined in the Schedule 8: Detailed Scope for the Civil Work.

Civil Construction and Gantry Erection Contract

- The Employer shall make payments to the Contractor in accordance with the terms and conditions under the Contract.
- The Employer may inspect the Works at any time and may at its own discretion give instructions to the Contractor in respect of the Works.
- If the Employer consider the Contractor to be incompetent to undertake any scope of work under this Contract, which estimated by the Employer's own discretion, the Employer shall have the right to remove any work from the Contractor's work scope without paying any fee for this part.
- If the Employer consider the Contractor fails to perform its any obligations under the Contract, the Employer shall have the right to make any claims under the Performance Security.
- Any approval or consent or absence of comment by the Employer or the Employer's representatives shall not release the Contractor's obligations under the Contract.

3. The Contractor

- The Contractor shall responsible for clean up the Site before commencement of the Works.
- The Contractor shall carry out and complete the Works within the Key Project Date as specified in sub-clause 6.3.
- Co-ordination with local people, getting the approval of civil work activities from the Employer/ Local Statutory Bodies is the responsibility of the Contractor. The Employer shall assist the Contractor for getting the approvals from PGCB
- Contractors' sub-contractor should not approach the Employer for any topic related to non-performance of obligations by the Contractor towards his sub-contractor. If that is a case it would be give complete right to the Employer to deal with the same at risk and cost of the Contractor.
- No additional works/ extra works should be performed without getting written confirmation from the Employer.
- The Contractor shall provide the As-built information for the changes/corrections made at site during civil works.
- The Contractor shall be responsible for construction quality and meet the requirement of PGCB. If the Contractor fails to carry out any obligation under the Contract, the Employer may, by notice, require the Contractor to make good the failure and to remedy it within a specified time. Without limiting the Employer's other rights and remedies under the Contract, if the Contractor fails to make good and remedy the failure within the time specified in such notice, the Employer may, either itself or by other contractor, and at the Contractor's risk and cost, carry out the obligation.
- The Contractor shall take charge for the electricity and water supply and expenses for the construction use.
- The Contractor shall verify, correct (if any) and be responsible for bench mark, lines or levels of reference provided by the Employer. The Contractor shall set out the Works according to such verified original points, lines or levels.
- The Contractor shall acquire and provide all permit, approval, license, labor, materials, equipment, vehicle, construction machinery, consumables, electricity, water and any other requirements necessary for performance of the Works, except for the equipment and materials supplied by the Employer as defined in the Schedule 8: Detailed Scope for the Civil work.
- The Contractor shall provide any documentation to the Employer as required.
- The Contractor must comply with all laws, regulations, Employer's documentations and instructions, and any other statutory or binding documents related to the Facilities.
- Pursuant to Clause 10.6, the Contractor shall pay all taxes and fees as stipulated by laws of

Date: 11/06/2024

Attention: Md. Robiul
Contact no: 01789231320

Work Order No.: G1DWZTGE001

Dear Sir,

With regard to the Complete Compacted Land development with earth filling at Shatkhira (bay extension) we are pleased to place a work order in favor of you subjected to the following terms and conditions agreed by you.

SI. No.	Description	Estimated Qty (cum)	Unit Price (Tk)/cum	Amount(TK)
1	Sand filling Complete Compacted Land development with earth filling			
Estimated total Price				18,540,000.00

Terms & Condition:

- The final quantity should be confirmed by PGCB's approved quantity.
- The unit price is based on the condition that sand filling work should be completed within 91 days.
- The previous subcontractor filling quantity has been confirmed by each party. The final quantity is $8049.115 \times 90\% = 7244.2$ Cum.
- Progress payment is according to working schedule & actual quantity completed on end of each month.
- GPI AsiaTel offers the price including as follows materials, transportation, dyke, work face, machine, tools equipment, tax etc.
- The Contractor has completed and passed the compaction test at the satisfaction of the Employer and PGCB.
- CNEEC reserves the right to terminate the work order for quality & other issue within 1 week before written notice.
- Final payment shall be made after join-measurement at site.

Thanks & regards.

(Ge Wenbo)

Specification No. TTE/02/2019/Revision 03/14/2019

The "Subcontractors" should deploy a safety officer with enough qualifications and experience in enough quantity to cover every work front under the "Subcontractors" responsibility. PGCB and EEL can dictate any safety measures to be taken by the "Subcontractors".

5. CONSTRUCTION MATERIAL TO BE USED:

Prior approval from PGCB officials shall be taken by the Subcontractor for materials to be used.

Aggregate	: 20mm downgraded boulder crushed black stone chips (Approved by PGCB)
Fine aggregate	: Sylhet Sand/Domar Sand (Approved by PGCB)
Cement	: PCC Cement/ cem-II (approved by PGCB)
Bricks	: 1' Class (25Mpa)
Reinforcement Bar	: 60 Grade/500W (72500psi)

Specifications & brand may be defined as per PGCB (record no:27.21.0000.412.49.121.22.166) requirements and approval.

6. WORK PROGRAMME:

Time is the essence of the contract. Considering the workability of the section, "Subcontractors" will submit within the 07 days after the signing of the agreement, a bar chart showing starting date and completion date of each category of work and a plan for the resource's deployment: a list of resources, quantity, and date for site availability. "Subcontractors" work programmed must be based on the program established for the project (herein referred as to Project Schedule). "Subcontractors" shall also submit the schedule of line materials Schedule requirements, which has to be issued by "EEL" in the terms of the present agreement. If the performance of "Subcontractors" is found not satisfactory, upon notifying the Subcontractor, "EEL" shall have every right to terminate this agreement.

7. LIQUIDATED DAMAGE:

The entire work in the "EEL" scope has to be completed as per PGCB's requirement. However, "EEL" shall be liable to pay liquidated damage as per the rate imposed on "EEL" by PGCB in the Main Contract. The liquidated damages for the "Subcontractors" shall be 15 of the contracts sum per week or part therefore, with a maximum value of LD of 10% of the total contract amount. However, if the "Subcontractors" finishes the entire scope of work in scope within the scheduled time, then LD shall not be imposed on the "Subcontractor" regardless of any LD imposed to EEL.

8. GENERAL:

Necessary site clearance in accordance with the requirement of technical specifications is also in the "subcontractor's" scope of work. "EEL" will not pay any extra amount beyond the "subcontractor's" quoted price. "Subcontractors" shall collect all the necessary materials to be provided by EEL from its project store. Loading, unloading transportation with necessary arrangements like excavation (both manually & mechanical), water supply (submersible pump) for uninterrupted continuous work at site within the "subcontractors" scope of work and the price of the same included in contract value. "Subcontractor" cannot transfer or sub-let all or part of this contract without prior & written permission from the EEL, at the Dhaka office. Continuity of the sections for any particular work is not assured.

Energypac Engineering Limited

Energypac
Engineering

Specification No. TTE/02/2019/Revision 03/14/2019

9. SCHEDULE OF QUANTITIES:

The number of works indicated in the bill of quantity is part of the present agreement. Quantities indicated in it can vary in accordance with PGCB instruction and approval of works to be performed. The "subcontractors" scope can also be modified by EEL in case of performance is not suitable or below the requested as per the project schedule. EEL reserves the right to engage other subcontractors in different sections of the work when necessary to conclude the project within the contractual period established in the Main Contract.

10. WORK SPECIFICATONS:

EEL has to carry out all the work strictly as per the specification of PGCB as applicable for this project. A copy for said specification is attached. All the work is to be carried out to the complete satisfaction of our site engineer and representatives of PGCB. Any rejection of "subcontractor's" work by EEL or PGCB shall be on the "subcontractor's" account and the cost of our supplied materials shall be recovered as per the prevailing market rate plus 15% handling charges.

"Payment for additional excavation, concreting, reinforcement, etc., shall be as per the quantities mentioned in the approved design & drawings by PGCB or as per Joint Measurement Certificate. It will be "subcontractor's" responsibility to obtain the Joint Measurement certificate (JMC).

11. PAYMENT TERMS:

The subcontractor be paid as follows:
The subcontractor will be paid as per **Payment Schedule**.
In case of any deduction by PGCB on account of "Subcontractor" materials, workmanship, or otherwise, the same will be recovered from the "subcontractor" "invoice in full. Such payment will be accepted as per the norms of PGCB and EEL. It is further understood that no further payment will be made to "subcontractor" on account of such payment beyond the "subcontractor" quoted price. 10% retention amount will be deducted from every progress bill and 5% will be paid just after receiving completion certificate from "EEL". In addition, rest 5% retention amount will be paid after 365 days from receiving completion certificate. It is explicitly understood that the "subcontractor" will be responsible to collect the Joint Measurement Certificate (JMC) from the client.
All the payment will be made in Bangladeshi Taka.

12. TAXES and DUTIES:

This work order value is excluding Income Tax (AIT) and VAT.

 Adabor, Shyamoli, Dhaka-1207

Subject: Issuance and Handover of Civil Sub-Contracting Work Order and related Documents for K.U.E.T Sub-station project site, KUET Campus, Fulbarigate, Khulna.

Reference: BP No. - 019255

Dear Sir,

Greetings from Energypac Engineering Ltd.

We are pleased to inform that, based on your price proposal and several price / rate negotiation with Energypac Engg. Ltd.'s project and design team; finally the management has awarded GPI AsiaTel for Civil Works Sub-contracting agreement no.-3 of K.U.E.T 33/11KV New AIS 2x5/6.6MVA Sub-station, KUET Campus Khulna.

Scope of Works and Work related area are narrated in Approved Work Order-3

Here we provide you related documents. These are listed here:

1. Certified Duplicate Copy of Original Work Order-3
2. K.U.E.T- CRTS _ Civil Rate schedule
3. K.U.E.T approved Layout / Design

We expect your all cooperation and action for work completion within stipulated time frame.

Thanking you

Engr. Rahamata Illi Al-Amin
 Dy. Manager (i.d:-40209)
 Project Manager (Authorized Signatory)

This agreement has been signed on the 28th August, 2023, in between **Energypac Engineering Limited (EEL)**, having its corporate office at Energy Center, 25, Tejgaon I/A, Dhaka-1208 hereinafter called the "**Contractor**",

and

GPI AsiaTel having their corporate office at House # 711/4, Road # 11, 1st Floor, Baitul Aman Housing Society, Adabor, Shyamoli, Dhaka-1207 hereinafter called the "**Sub-contractor**".

Estimated Sub-Contracting Amount:

Sub-station:		
KUET Sub-Station		

Scope of Works: [A total of 8 nos. Page, containing detailed BoQ attached here.]

- Construction of remaining works of 2 Storied Control Room Building, as per approved Drawing & Design.
- Plumbing and Sanitary Works
- Building Electrification Works
- Any other associated Civil works and facilities required to fulfill the BoQ.
- Testing of Construction Samples and Materials from CRTS-Civil dept. KUET, as required.
- Safety & security: All codes of HSE and security of Construction materials shall have to be maintained by the Sub-contractor.

Main Terms and Conditions of this Sub-contract:

- Work shall have to be carried out as per approved design and instruction of Engineer in charge.
- Supply of materials and Construction works shall have to be carried out according to the required quality and specified standard as mentioned in the Contract.
- Progress payment for Civil works will be made as per measured quantity from KUET Engineering dept.

Payment Terms:

- The Work Order Amount refers to the estimated quantities of work. This may vary as per requirement of Engineer in charge.
- The actual Volume and Amount of Work Order will be the Sum of Civil Works Measured values by the Employer's Engineering Dept.
- 100% Back to Back Payment method will be applicable for Progress Payment.

28.08.2023

ENERGYPAC ENGINEERING LTD.

- There will be no payment for Mobilization.
- A total of 90% Payment will be made through Progress Bill for 100% completion of work Volume.
- Remaining 10% amount will be paid after successful Completion of the Project works.
- Applicable AIT will be deducted as per Govt. rules.

Work Variation Clauses:

- Work volume, said in the Contract may vary as per requirements from Engineer in charge, for both Excess & Less in quantity, will be counted followed by at actual measurement of works from the Employer's Engineering Dept.
- The Work Order amount has been one estimated figure and will not be limited to the quantities in BoQ.
- All Progress / final payments will be made as per at actual measurement from Site works.

Code of Conduct:

1.0 In Person:

- All personnel engaged / appointed by the Sub-contractor; shall properly behave in positive manner and attitude with Employer and Contractor.
- The Person from Sub-contractor shall have to be withdrawn from site / office, once any proven faults in Conduct are found thereof.

2.0 Work attitude:

- The Sub-contractor shall have to be aligned with the Construction program from the Employer and the Contractor.
- The Sub-contractor shall have to follow the work instruction in a positive manner and shall be in line with Project requirements.
- Construction works shall have to be carried out as per requirements from K.U.E.T authority.

Termination Clauses:

Energypac Engineering Ltd. reserves the right to terminate the Sub-Contracting agreement for breach of terms and conditions any of the above or without showing any reason.

Supplying 100mm inside dia best quality UPVC soil, waste and ventilation pipe having specific gravity 1.30-1.45, wall thickness 3.4-4.0 mm, and other physical, chemical, thermal, fire resistance properties etc. as per ISO approved manufacturer standards or ASTM, BS/EN/IS standards fitting and fixing in position with sockets, bands, with all accessories such as flange, gasket, cement seal, galvanized bands, sockets etc. approved and accepted by the Engineer-in-charge.	meter	20	0	18
Supplying 100mm inside dia best quality UPVC soil, waste and ventilation pipe having specific gravity 1.30-1.45, wall thickness 4.0-5.0 mm, and other physical, chemical, thermal, fire resistance properties etc. as per ISO approved manufacturer standards or ASTM, BS/EN/IS standards fitting and fixing in position with sockets, bands, with all accessories such as flange, gasket, cement seal, galvanized bands, sockets etc. approved and accepted by the Engineer-in-charge.	meter	20	0	15
Supplying fitting and fixing of 20 x 40 mm Flange meeting the performance in long term strength requirements as per DIN 8277/78 or ASTM A 2903 including gasket, gaskets, rollers, key, and stop, ring, socket etc. as per manufacturer instruction all complete accepted by the Engineer-in-charge.	meter	30	0	30
15 mm dia, minimum wall thickness 0.8 mm, retaining minimum water pressure PM 18, standard dimension ratio (SDR) 1.4	meter	15	0	15
20 mm dia, minimum wall thickness 1.1 mm, retaining minimum water pressure PM 18, standard dimension ratio (SDR) 1.4	meter	15	0	15
Supplying fitting and fixing of best quality CP ball valve etc. complete approved and accepted by the Engineer-in-charge. 12 mm special quality CP ball valve	each	6	0	6
Supplying fitting and fixing of best quality CP ball valve etc. complete approved and accepted by the Engineer-in-charge. 12 mm CP medium quality ball valve	each	4	0	4
Supplying fitting and fixing of angle stop etc. complete approved and accepted by the Engineer-in-charge. 12 mm CP medium quality ball valve and standard angle stop	each	12	0	7
12mm cutting in pipe work with R.C.C. work, including cost for connecting of C.I. pipe work (12 mm and 16 mm dia) to brick wall by cutting ground or earth, where extra etc. by any means carefully without damaging the structure and filling the groove with C.I. (R.C.C.) after using of pipe including cost of workmanship, loading, fixing etc. all complete approved and accepted by the Engineer-in-charge. Groove size 75 mm x 75 mm (for 20 mm to 40 mm dia pipe)	meter	60	0	60
Supplying fitting and fixing of best quality G.I. pipe valve with standard etc. complete approved and accepted by the Engineer-in-charge. 50 mm brass gate valve	each	2	0	2
Supplying fitting and fixing of G.I. valve with standard etc. complete in all respects approved and accepted by the Engineer-in-charge. 50 mm dia G.I. valve	each	2	0	2
Supplying fitting and fixing of G.I. valve with standard etc. complete in all respects approved and accepted by the Engineer-in-charge. 40 mm dia G.I. valve	each	4	0	4
Supplying fitting and fixing of G.I. valve with standard etc. complete in all respects approved and accepted by the Engineer-in-charge. 40 mm dia G.I. valve	each	4	0	4
Construction of concrete foundation pits will be a depth of 300 mm with 200 mm dia brick work in cement mortar (1:4) including 100 mm thick R.C.C. top slab (12x12) with its reinforcement, inner liner cover with lining (including designed necessary work, cost fitting and installation for setting, 75 mm thick (3.8) base concrete for making trench channel and 10 mm thick (1:1) cement plaster with coat thickness etc. all complete approved and accepted by the Engineer-in-charge. Clear 400 mm x 400 mm and depth 400 mm to 500 mm, average 525 mm for single 100 mm dia R.C.C. pipes and 500 mm PVC pipe with top cover and 400 mm dia C.I. man-hole cover.	each	4	0	4

Part C: Electrical Works				
1. Unshielded control wiring with following PVC insulated and sheathed stranded cable (PVC) & PVC Insulated Green / White coloured PVC wire (PVC) (PVC, SG, NB) through PVC conduit of suitable manufacturer conforming with IS 8050 for steel and cast iron with iron clad electrical plant cover. Ring material etc. as required including mounting the damage proof. All electrical contacts shall be of brass / copper connected through connector or soldering the terminal shall be allowed and cables shall be manufactured and tested according to relevant IEC / BS / IS / ISE standards and as per direction / specification mentioned below. The work shall be carried out as per direction & approval of the Engineer.				
Cable manufacturer(s) must have valid test certificate from internationally accredited laboratory (like SPRI, KEMA etc.) accepted by the Engineer.	meter	1200	0	840
10 1/2-20 (3) system (PVC) cable with 2.5mm (PVC) EEC wire and 2.5 system (PVC) PVC cable through PVC pipe of minimum cover dia. 25 mm having wall thickness of 3.5 mm.	meter	300	0	265
11 1/2-24 (3) system (PVC) cable with 4 system (PVC) EEC wire and 4.00 system (PVC) PVC cable through PVC pipe of minimum cover dia. 30 mm having wall thickness of 3.5 mm.	meter	800	0	600
12 1/2-30 (3) system (PVC) cable with 6 system (PVC) EEC wire and 6.00 system (PVC) PVC cable through PVC pipe of minimum cover dia. 35 mm having wall thickness of 3.5 mm.	meter	200	0	180
Providing & fixing of the following PVC insulated & sheathed cable (PVC) (PVC) insulated & PVC insulated cable (PVC) with PVC Insulated Green / White colour EEC wire (PVC) (PVC, SG, NB) connecting in both ends through PVC pipe & accessories in the following manner. All electrical contacts shall be of brass / copper connected through connector or soldering the terminal shall be allowed and cables shall be manufactured and tested according to relevant IEC / BS / ISE standards. The work shall be carried out as per direction & approval of the Engineer-in-charge provided the rating 40, 20 or smaller PVC or cable strength with necessary link in the protection and reducing the diameter gap by filling with proper compound.	meter	25	0	18
Cable manufacturer(s) must have valid test certificate from internationally accredited laboratory (like SPRI, KEMA etc.) accepted by the Engineer.	meter	200	0	165
13 1/2-30 (3) system (PVC) cable with 6 system (PVC) EEC wire and 6.00 system (PVC) PVC cable through PVC pipe of minimum cover dia. 35 mm having wall thickness of 3.5 mm in plastic base.	meter	300	0	300
Providing & fixing of single phase overhead compound switch tower under (alum. covered switch) material surface / compound tower manufactured and tested in accordance with relevant IEC / IS / ISE / BS / IS standards installed on suitable size 18 (mm) galvanized iron sheet / plate base (not exceeding 4500) of 76.2 mm (3") depth. (Sump) to be approved by the engineer.	each	60	0	35
Approved and made in BANGLADESH / CHINA / INDIA / TURKEY / VIETNAM				
Sample must be approved by Engineer-in-Charge. Brand: Energypac (PVC)				
Providing & fixing 250 volts, 1 / 4 wires (minimum) concealed type following switch / switch cover manufactured and tested in accordance with relevant IEC / ISE / BS / IS / ISE standards installed on suitable size 18 (mm) galvanized iron sheet / PVC board (not exceeding 4500) of 76.2 mm (3") depth. All electrical contacts shall be of brass / copper. Manufacturer must have certificate of standard when the factory.	each	10	0	10
Approved and made in BANGLADESH / CHINA / INDIA / TURKEY / VIETNAM				
Sample must be approved by Engineer-in-Charge. Brand: Energypac.				
15 One gang switch	each	13	0	13
16 Two gang switch	each	12	0	12
17 Three gang switch	each	15	0	15
18 One gang switch & one 5 wires 1-pole switch combined	each	40	0	40

ANNEXURE : Additional Terms & Conditions

Attribute	Description
DETAILS OF WORK	<p>DETAILS OF WORK: 1. Scope of work the following works are offered: A. Pile Foundation: 1. Verification of position of tower as per approved profile, pile layout, boring, fabrication, placing of reinforcement cage, shifting of materials, installation of bored and cast in-situ piles of varying diameter, length and number as per approved drawings and pile schedule at the tower locations. 2. Laying of concrete for cast in-situ piles including verification of exact pile points, tower location prior to pile cap, excavation shoring and shuttering, de-wafering, pile head breaking, sand filling, anchoring the pile reinforcement in pile cap, temporary sand filling to avoid foreign materials from work point, stub setting, fabrication and placing of reinforcement bars, supply, fixing/removing form works/box, mixing for chimney works with proper form box/shuttering, compacting, curing, installation of tower grounding and removal of any extra earth or other materials from the site. 3. Marking of foundation pits as per the approved drawing. Excavation in all types of soil, setting of stub with template/trap, fabrication and fixing of reinforcement, concreting of foundation as per the design & Drawing provided for this purpose, backfilling of pits with approved quality of soil and compaction, removal of template and benching if required in all type of soil. B. Sub-contractor's scope of work includes procurement of Cement, Bentonite, Fine & Coarse aggregate from approved source as per the specification of PGCB for this Transmission line. C. Collection of stubs, reinforcement steel etc. (to be supplied by L&T) from site stores and transport it to location site. D. Fabrication, placement, welding, binding, etc. of reinforcement steel (provided by L&T) as required as per the approved drawing. E. Supply of all construction materials conforming to PGCB specification and consumable items, tools and equipment required for above activity, other than those provided by (details given below). F. Resolving rights of way access related issues and payment of compensation on reimbursable. G. After completion of foundation work of each location, earthing work must be done by you. Otherwise, 10% payment shall be kept on hold if earthing work not completed along with foundation. This withheld payment shall be released after completion of tower Earthing.</p> <p>WORKMANSHIP: The work shall conform to specification of PGCB and to the total satisfaction of PGCB & L&T's representatives. All work shall conform to approved geometry of the structural elements according to Drawings approved by PGCB issued by L&T representative. To measure strength, concrete test cubes as suggested by the PGCB representatives shall be prepared and tested. The minimum number of cubes shall be taken and tested as per the terms of contract or as suggested by PGCB engineer during execution of work. The test report shall submit to us in duplicate for our perusal on completion of each month. This is an integral part of the scope of work.</p> <p>PRICE VARIATION: Price shall remain firm throughout the project completion period.</p> <p>TAXES & DUTIES VARIATIONS: All Rates are including AIT & VAT Applicable is Zero.</p> <p>MODALITY OF PAYMENT: Payment for the above work shall be made in accordance with followings. (i) After completion of Piling work – 55% Payment of Piling (ii) After successfully completion of Pile Integrity Test – 10% Payment of Piling (iii) After completion of Pile Cap – 25% Payment of Piling & 95% Payment of Pile Cap (iv) Remaining 5% of the total work done value shall be the Retention</p> <p>MATERIALS & DISPATCH: Materials to be provided by L&T. L&T shall free issue the following materials from L&T's project store. The subcontractor has to transport the materials from L&T's store to site. (a) Reinforcement as supplied by the manufacturer at approved consumption rate. (b) Stubs & Cleats and Bolts & Nuts for foundation as per approved design. (c) Grounding Materials (excluding charcoal and salt) and fastener for tower grounding as per design.</p> <p>RECOVERIES: L&T's Project in-charge shall decide the quantities of the above items</p>

PARTNERSHIP AGREEMENT

HUAWEI Project

BETWEEN

PT YOUNG PENG INFORMASI TEKNOLOGI

AND

GPI ASIATEL

No : PA-20250930GPI-MPS-05

Date : 30th Sep 2025

Aria @ Sudirman, 15th A Floor,
Jl. Jend. Sudirman, Kav. 33 A,
Central Jakarta – DKI Jakarta
Indonesia 10220

**ARTICLE 11
TERMINATION**

1. YPIT may terminate this Agreement with 7 (seven) days' written notice in the event of:
 - o Breach of contract by Bangladesh Supplier,
 - o Non-performance or poor performance,
 - o Legal or regulatory violations.
2. Upon termination, Bangladesh Supplier shall ensure the demobilization of all its personnel and clear all dues, liabilities, or obligations within 10 (ten) working days.

**ARTICLE 12
YPIT Obligation**

YPIT will provide following to the resources provided by Bangladesh Supplier:

1. Accommodation:
 - a. *Can up to 4 person (1 PM, 1TL, 2 Riggers)
 - b. *Include management fee, cleaning fee, water, electricity)
 - c. *Provide kitchen area and allow to self-cooking
2. Meal allowance: IDR 100,000/day/person, post-paid after 10 working days.

RF and Drive Test Service and Summary

RF (Radio Frequency) Part

Radio Frequency (RF) is a very important component of network systems. It helps us to identify the strengths, weaknesses, and flaws of a network and ensures the best performance of the system.

We have a strong and skilled RF Team who are continuously working and researching in the field of Radio Frequency systems. Each team consists of one RF Expert Engineer and one Helping Hand Technician. During RF operations, our team continuously performs monitoring and troubleshooting to ensure optimal results.

With our experienced RF engineers and advanced tools, we have successfully completed many major RF projects with high accuracy and efficiency.

Drive Test Service and Summary

Drive Test (DT) Part

Drive Test (DT) is an essential part of RF operations, which helps us to evaluate network performance under real field conditions.

For DT, we use various types of vehicles depending on the project — such as cars, trains, and boats — to measure network coverage and quality in different environments.

We configure our RF tools according to the client's requirements.

Example Configuration:

- MS-1: 2G Active
- MS-2: 2G Idle
- MS-3: 4G Idle
- MS-4: VoLTE
- MS-6: GPS

Our DT Team and Achievements

We have a strong and experienced Drive Test Team consisting of:

- Three (3) skilled DT Engineers
- One Radio Frequency Planner

Our team has successfully conducted multiple Drive Test projects, including:

- Full Dhaka City Drive Test (several times)
- Highway Drive Test (multiple routes)
- Railway Drive Test Indoor (IBS) Drive Test — at various commercial buildings and offices
- Outdoor Site Drive Test — in city and suburban areas

DT Performed Major Sites and Important

Some of our significant project locations include:

- Hazrat Shahjalal International Airport (1st, 2nd & 3rd Terminal)
- BRAC University (New Campus)
- Metro Rail
- Bangladesh Supreme Court
- Highway and Railway Route DT Projects
- Dhaka Elevated Expressway
- Padma Setu
- Dhaka CMH Hospital
- Savar Cantonments
- Dhaka Komlapur To Benapole Train route
- Dhaka To Sylhet Highway road
- Bangladesh Secretariat

Safety Management And Awareness

Our Commitment At GPI Asia Tel, safety is not just a policy — it's our core value.

We ensure that every team member and partner follows strict safety protocols during all stages of IBS project implementation.

Tagline *No Safety, No Work*
Always Safety First.

Key of Safety Practices

- “No HSSE, No Work” – no activity starts without safety clearance.
- Use of PPE (Helmet, Gloves, Safety Shoes, Vest, etc.) is mandatory for all personnel.
- Daily Toolbox Meetings and Risk Assessments are conducted before work begins.
- Strict compliance with Electrical, Grounding, and Equipment Handling Safety Standards.
- Work Permit System strictly enforced at all sites.
- First-Aid Support available at every project location.
- Continuous Safety Training & Monitoring for all team members.
- Full compliance with Client and Vendor EHS Guidelines (GP/Vendor Policy).

Our Safety Culture

We foster a work culture where every individual takes responsibility — not only for their own safety but also for their teammates.

Our motto:

“Safety First, Quality Always.”

“Work Safe, Return Safe.”

A safe environment ensures better performance, higher quality, and stronger client trust.

Our Strategic Partner:

ZAARA

Tourism & Travels

Our Strategic Partner: Zaara Tourism & Travels

As part of our commitment to providing multifaceted solutions, GPI AsiaTel is proud to introduce **our sister concern, Zaara Tourism & Travels**. While **GPI AsiaTel** focuses on the backbone of connectivity and infrastructure, Zaara Tourism & Travels connects people to the world through seamless travel and exploration experiences.

Zaara Tourism & Travels, an IATA accredited travel agent is one of the leading travel agent operating in Bangladesh. With a view to provide a comprehensive travel opportunity of all kinds, of all forms and for everyone. The team Zaara is run by dedicated, an energetic, well-experienced professional team fully conversant with latest travel trends & its practices engaged to support our vision “it’s all about travelling.”

- Certified travel agency of Bangladesh Government - Ministry of Civil Aviation and Tourism (Reg. No. 0013989)
- Trade License no. TRAD/DNCC/071307/2022
- IATA Accredited Agent (Code: 42342893)

By using the most modern tools & mechanisms Zaara Tourism & Travels provides accuracy of the flight availability and guaranteed reasonable pricing. Zaara team ensures to meet the customers expectation by finding suitable airline, routes and reasonable fares to match their budget within their expected time frame. Our team is having multitasking and multifunctional staff members to deal with our valuable clients – who are our real king in a safe and enjoyable and hassle-free travel. There are four elements of Travel: Funding, Destinations, Right time and Season, sense of fun and Adventure.

Zaara Tourism & Travels offers a comprehensive suite of travel management solutions designed for both individual explorers and corporate clients:

- ◆ **Air Ticketing:** Competitive domestic and international airfares with all major airline partners.
- ◆ **Global Visa Processing:** Specialized assistance for E-visas and sticker visas for countries worldwide, including the UK, USA, Canada, and Schengen areas.
- ◆ **Holiday Packages:** Curated international tours to popular destinations like Bali, Maldives, Sri Lanka, Jordan, and Thailand.
- ◆ **Hotel Reservations:** Access to a vast network of global accommodations ranging from luxury resorts to budget-friendly stays.
- ◆ **Umrah Packages:** Dedicated religious travel services ensuring a spiritual and hassle-free journey.
